USCSchool of Pharmacy

PHARMPROGRAM

- Q&A
 - How does the PharmD & MBA 5 year program work?
 - Start your first year, then apply for the MBA program and then start your MBA in your second year
 - 3rd&4th year to finish the rest of the PharmD program
 - 5th year is to finish up the rest of what you need to do
 - Do the pre-pharm requirements need to be finished by the time we apply? Or is it by the time the program starts?
 - Pre-reqs have to be finished by the time that the program starts
 - What is a typical day of a student like?
 - There's a youtube! "Typical day of a pharmacy student"
 - Thursdays are case conference days
 - Case study day where students are working in groups on cases together

- Some days are where students are out for their IPPEs or APPEs
- Working with their clubs
- Lots of studying
- Do re-applicants have a disadvantage when it comes to admission?
 - There is no cookie cutter type of person coming in
 - Looking for different types of students
 - Be yourself and let them know who they are
 - It's ok to apply and USC welcomes any type of student
